

# FILL-RITE®

The Most Trusted Name in Pumps and Meters

## THE LEGEND CONTINUES DC FUEL TRANSFER PUMPS

Fill-Rite® DC powered pumps provide the flexibility and power to handle even your most difficult applications.

DC power means mobility. Whether you mount the pump on a skid tank, in a truck bed, or install it on a large bulk tank at a remote construction site, a Fill-Rite G-series DC pump delivers high flow and rugged dependability. It also means flexibility since Fill-Rite DC pumps are available in 12 and 24 volt DC models.

Manufactured from only the highest quality materials like cast iron, sintered bronze, powdered iron, and Buna-N seals, these pumps provide exceptional durability, and the ability to pump a wide variety of fuels. Explosion proof motors and UL listed models are your assurance of safety.

Additionally, a complete line of meters and accessories mean you can customize your fuel transfer system to meet your specific needs. From a simple mechanical meter, a hose, and a manual nozzle all the way up to a digital pulse output meter and ultra high flow automatic nozzle, nothing beats Fill-Rite fuel transfer equipment.
